the approaching special election in the Eighteenth district to fill the vacancy caused by the death of Congressman Remann, who died at the Great Northern hotel in Chicago yesterday morning was one of the most comspicuous personages in the state at the time of his death. He had courageously attempted the task of maintaining that republicanism in the state was at as high an ebb as it was at the election a year ago, since which time public excitement then lostered by missonessestime. his friends are becoming suspicious of Gen. Bushnell, and are afraid that if he is elected governor by a good-sized majority, he may become a rival candidate for the presidency and divide the Ohio delegation at the republican national convention next year. There is probably some foun-dation for McKinley's alarm. Gen. Bushnell would belie his state if he did not immediately start a presidential boom for himself in the event of his election to the gubernatorial chair. This is what a McKinley man

had to say on the subject yesterday: "Gen. Bushnell has already developed symptoms of a swelled head. If he is elected by a majority of 50,000 or upward he will immediately put up a presidential lightning rod. We are thinking seriously of giving orders to our friends to knife him. We would like to have him pull through by a scant plurality. but the trouble is, it is hard to regulate a matter of this kind. Who is in closer sympathy with humanity, its needs and its sufferings, than any man who is alive today, says:

> "Go through a crowd of people, preferably city peo-ple, examine their tired, anxious, wasted faces; re-member your life and the lives of those whom you have known intimately; recall the many sad cases of sickness and sorrow of which you have heard, and ask yourself the reason of all this suffering and despair. And you will see, however strange it may appear. that the cause of nine-tenths of human misery is some chronic weakness or disease, that this suffering is useless, that it could be avoided, and that the majority of people whose lives are darkened by ill health might be strong, vigorous and happy.'

Coupled with the words of this grand man is the great truth that four-fifths of all diseases arise from kidney, liver or bladder complaints.
